

## *Intuitive Consults, Coaching, Training*

Cheryl Brewster's story is one of extraordinary trust. After training as a certified professional intuitive, she left a successful career in the corporate world to "follow a calling" and founded The Intuitive Life in 2004 to provide intuitive consultations and training.

Cheryl possesses the rare gift of assisting individuals, business professionals, entrepreneurs and thought leaders to go deep into their intuition to find "positive reframes" and inspired action for more powerful outcomes.

Cheryl has developed and facilitated in-person and online training programs on Intuition in Business, Intuitive Sales Prospecting, Resilience to Avoid Burnout, Excellence in Customer Service, Transformational Communication and Conflict Resolution to The Justice Institute of BC, HRMA (Human Resources and Management Association), CSNM (Canadian Society of Nutrition Managers), Rhodes Wellness College, UFCW (United Food and Commercial Workers Union), Douglas College, local government, caregiver and small business groups.

As a professional Intuitive, she has delivered keynotes, training and showcased intuitive skills for Starbucks, Tourism Whistler, Christian Dior, Every Woman in the World, event companies, conferences and local government. Cheryl's "one-of" intuitive consults are supported with Mindfulness and Intuitive Mentor programs to assist individuals in self-development, life transition, career, relationship, resilience and intuitive development.

Her "call to Joy" also includes "Intuitive Celebrations for Life's Meaningful Moments." Her infectious enthusiasm adds the sparkle to any event ranging from weddings, to baby blessings, celebrations including retirement, birthday parties, intuitive salons, bridal and baby showers, home blessings and more. She provides comfort and guidance to bereaved families in her celebration of life ceremonies and is an Ordained Minister of Metaphysics with legal status to officiate weddings in Canada and the US.

In 2010 a family crisis plunged Cheryl deep into a dark night of the soul, leading her to further research energy healing, trauma recovery, and the neuroscience of peak states and the quantum field. From her own experiences and client case studies, Cheryl is convinced that we must each discover and live our personal "joy factor" which can often arise when life is the most challenging. Her passion is helping her clients to achieve goals with "gratitude in advance" through intuitive consultations and education.

### *Testimonial*

You have to work with Cheryl if you want to develop your potential more; this woman has a phenomenal capacity to help you see what holds you back and to confront it, to make a difference in your life. In the workplace, this isn't about making someone a better sales or IT person (although it might); it's about transforming you so that no matter what your personality profile is, you have the ability to perform more to your potential. Cheryl's individual and group work was more than what I expected, and far more relevant to me than I could ever have imagined. ~ Tom Carson, Corporate Trainer, Winnipeg
